

JOZART CLUB TO JOIN STATE, NATIONAL BODIES

At its opening meeting Thursday evening at the home of Mrs. Clarence McCormick in Cedar avenue, the Jozart Club voted to become affiliated with the state and national federations of music clubs. The officers were instructed to take the necessary steps to secure membership. The new officers took charge, with Edgar A. Therese of Dunbar in the presidential chair. Robert L. Werner was named a member of the membership committee in the place of Miss Elizabeth Stevens, who had resigned at school. The club discussed the invitation of the Monday Musical Club of Scotland to give a concert there during the fall. Preparations will be begun at an early date, under the supervision of Mr. Werner, the director. The date has not been determined. This will be a return for the appearance in Connellsville last winter of the Scotland club. The evening's program was a study of Pennsylvania composers and Pennsylvania in music generally. Mrs. H. E. Gibson was leader. She presented sketches of Fennell, Kova, Foster, Cadman and Darleigh. Under the head of "Pennsylvania in Music," W. S. Schumacher read a paper dealing with musicians of lesser note and with patrons of music in the state. Miss Pearl Keck played a piano suite by Schubert's "Ave Maria" and "The Gondolier." The "Gondolier" was sung by Herbert Duggan, baritone. Mrs. Pasquale Gigliotti played "The Gondolier" and "Consona Amorosa," piano numbers, which were followed by the singing of "At Dawning" and "The Builders" by Robert L. Werner, tenor. The final numbers were "Come, For It's Time" and "Rose in the Bud" by Miss Helen Claybaugh, soprano. The next meeting will be October 23, in the form of a Halloween masquerade and "Consona Amorosa" at the home of Mrs. H. E. Gibson, as the hostess, assisted by Mrs. Peter R. Werner, Mrs. Robert L. Werner and Mrs. John J. Enos. Mr. Mason Mr. Werner and Mr. Duggan were named a committee on transportation. Cars will be provided for all who attend, the arrangement being to assemble at 7:30 o'clock in Crawford avenue below the West Penn. Husband and wives and sweethearts of the members are included in the invitation to attend.

W. C. T. U. No. 1

W. C. T. U. No. 1 met last evening at the home of Mrs. J. W. Suder, in North Pittsburg street, with a large attendance and a very interesting session. Mrs. Harriet Lytle and Mrs. M. M. Dobble sang songs. Mrs. Lytle and Mrs. Dobble sang two duets which were highly appreciated. This was followed by reading a clipping of Mrs. Seymour's address at the Cambria county convention. Mrs. Egroy read a paper on temperance. A piano and violin by J. W. Suder and daughter, Pauline, was an interesting feature. A letter from Mrs. Kate Hiltner of appreciation of the work of the local during the county convention was read. The hostess, Mrs. Suder, served lunch.

W. C. T. U. No. 2

Woman's Christian Temperance Union No. 2 will meet this evening at the home of Miss Grace Pope at 505 East Murphy avenue. The union will make final arrangements for the state convention.

Puny Babies Can Grow to sturdy children

Note which foods best agree. Be quick to stop constipation with Dr. Caldwell's Syrup Pepsin.

PARENTS need not despair because a baby is frail. Progress often rests upon the most trifling change in or addition to the diet.

Watch diet, digestion and elimination. There should be two or three stools a day, and as solid food is eaten, one or two. If there are less, and there is belching, wind, bad breath, symptoms that indicate constipation, give half a teaspoonful of Dr. Caldwell's Syrup Pepsin, and by morning you will have a healthy youngster again.

Not all laxatives, however, are suited to young children, as many contain opiates and narcotics. Syrup Pepsin is entirely free from them, and is a simple vegetable compound of Egyptian senna with pepsin and pleasant-tasting aromatics. The formula is on every package.

Experienced mothers like Mrs. T. Breeman, 65 Lewis St., Peterson, N. J., and Mrs. Walter Morris Shively, Ky., have discarded all other laxative medicines for Dr. Caldwell's Syrup Pepsin. They find that this mild, gentle laxative answers every purpose and is a great improvement over the old-style harsh cathartic pill and calomel, which children hate to take.

Free Sample Bottle Coupon

There are people who very rightly prefer to try a thing before they buy it. Let them do this case and get the free sample bottle of Dr. Caldwell's Syrup Pepsin. Write to the Dr. Caldwell's Syrup Pepsin Co., 518 Washington Street, Montreal, Illinois, and a free sample bottle of Dr. Caldwell's Syrup Pepsin will be sent them postpaid by mail. Do not include postage. No return necessary.

ALL-BRAN
is a necessity!

When constipation is ripping the health out of your body, you can't afford to temporize! For health's sake—DON'T—when Kellogg's, because it is ALL-BRAN, is guaranteed to give you positive, permanent relief!

Know the truth about bran! To be efficacious, to give you sought-for relief, bran must be ALL-BRAN! Foods with a part bran content cannot be considered as relief for constipation sufferers! These foods do not have the bulk or "roughage" to drive out the conditions that are undermining your health!

What you need for 100 per cent relief is 100 per cent bran, and that is what you get when you buy Kellogg's—IT IS ALL-BRAN! And it is 100 per cent efficient, as your physician will tell you!

Kellogg's ALL-BRAN, all cooked, krumbl'd and ready to eat, is delicious as a cereal or used in baking and cooking. Eat two tablespoonfuls daily, or as much with each meal in chronic cases—and rid yourself of constipation and the toxic poisons that lead to many of the most dreaded human ailments!

Remember—Kellogg's ALL-BRAN is guaranteed to give you 100 per cent relief! DON'T GO HALF-WAY! All grocers.

Wraps and Things for Women's Wear

Late Paris Displays Show Very Few Real Tailor-Made Dresses.

The time has come, so Paris says, to ask of winter things—of sleeves and skirts and wraps and tunics planned by fashion kings. Latest word from that city gives the information that the smartest displays show very few real tailor-made dresses, and these few have very simple, straight skirts, jackets with belts not much lower than normal waistline.

Many belted jumpers are shown in plain kasha, velvet, jersey crepe, fur-trimmed and such, and are quite long and straight.

The sweaters are fastened with a few buttons either at the top, middle front or side, like Russian blouses. Also a few buttons are placed vertically at the sides to tighten the bottom. These jumpers are worn with very short skirts, pleated, straight, portefeuille or shaped three-piece, with long redingotes, either straight or shaped, with many seams, resembling one of a princess robe, not quite so narrow at the waist, but wider at the bottom. These are made in velvet, fulgurite, cloche or imitation fur. Crepe or fulgurite linings nearly always match the dresses or tunics worn underneath, the colors being black with white or tan tunics, brown with all beige and Bots de Rose, bottle green with plaid, beige or gray, garnet red with lighter shades of cherry, raspberry or beige. Some tunics are in lama.

The general silhouette in dresses is slightly widened at the bottom. Dresses have plaited sides, plaited and shaped aprons, panels, shaped flounces—sometimes several wide or narrow ones over each other, irregularly disposed; many insertions of plaid or plain material forming designs, often arranged in rounded movement, front and back forming two points at sides. These designs are often repeated at different heights following the same movements. There are many rounded yokes shown, often only the front or only the back plain. Sleeves are long and tight, mounted at the normal place. Dresses are often either belt, less or princess line.

The very cleverly cut evening gowns are nearly all in draped lace or chiffon over lame or matching satin or crepe fourreau. The principal colors are black, ruby, cherry, raspberry, purple, gold and silver. The dresses are wider at the bottom, many with wings at back or shaped flounces at front.

Very important novelty fur and velvet evening capes and coats have double front. For example, brown velvet coat lined with pink velvet, which also forms an inside coat—the back of the second coat lined with fur. A very nice effect is a woman wrapped in second coat leaving first falling at the sides.

Kashimura Cloth Cloak Has Squirrel Trimmings

Showing attractive cloak of kashimura cloth, squirrel trimming, being one of the features that will appeal to many women.

Renewing Window Shades

The process of repainting a window shade is very simple. Brush or wipe away, with a dry cloth, all the dust. Place the shade daily on a table or the floor. Mix three parts of flat wall paint with one part of mineral turpentine and, using a broad-bristle brush, apply to the shade, thinly. Use down strokes and work quickly. Two coats are sufficient. A white shade that is soiled can be made into a new and fresh-looking one if it is painted in gray, light blue, green or buff.

CONTINUED BUT SLOW IMPROVEMENT SHOWN IN SOFT COAL OUTPUT

Total Reaches 10,189,000, an Increase of 353,000 Tons; Same Trend in Bessemer Coke

WASHINGTON, Oct. 10.—The weekly report of the United States Geological Survey shows that the production of soft coal continues to improve steadily. The total output for the week ended September 27, including lignite, coal coked, mine run and local sales is estimated at 10,189,000 net tons, an increase of 353,000 tons. The average daily rate of output nearly reached 1,700,000 tons, and is

now just above the level attained at this time in 1932. It is still somewhat below the line for 1923, and before reaching the level of 1919 and 1920, it would be necessary to add about 2,000,000 tons to the prevailing weekly rate of production.

Production in the corresponding weeks of the last four years was as follows: 1923, 11,347,000; 1922, 10,185,000; 1921, 9,985,000; 1920, 12,123,000 net tons.

Production during the first 229 days of 1934 was 332,121,000 net tons, as compared with 411,013,000 tons in 1923, 278,931,000 tons in 1922 and 306,212,000 tons in 1921. The year 1924 is 31 per cent behind recent years of activity and seven per cent ahead of years of depression.

The production of bessemer coke

continued to improve in the week ended September 27. The total output is estimated at 132,000 net tons, an increase of 10,000 tons over the revised figure of the preceding week. The improvement was due principally to a gain of 12,000 tons in Pennsylvania and Ohio. The output in the group of four Southern states declined somewhat. According to The Courier, 717 additional ovens were put in blast in

the Connellsville Region and the output there increased from 59,520 tons to 70,360 tons.

Cumulative production for 1934 to September 27 stood at 7,455,000 net tons. In 1923 it was 14,451,000 tons, in 1922, 4,769,000 tons.

Production by states, as compared with the corresponding week in 1923, was as follows:

Pennsylvania and Ohio	54,000	265,000
West Virginia	7,000	15,000
Alabama, Kentucky, Tennessee and Georgia	14,000	13,000
Virginia	3,000	13,000
Colorado and New Mexico	5,000	6,000
Washington and Utah	4,000	4,000
U. S. Total	122,000	321,000

Steel Company Merger Said to Be Shaping Up

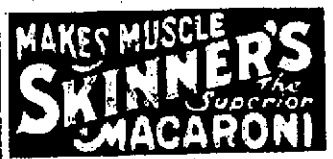

Information was received in the coke region today that a merger of independent steel companies is in contemplation. The Bethlehem Steel Corporation, Youngstown Sheet & Tube Company and Pittsburgh Steel Company are said to be the central group about which the merger will form.

The abandonment of Pittsburgh Plus, which necessitates the inde-

pendents establishing a number of basing points, is said to have created a condition stimulating the merger movement.

Women Who Look Old.

In many cases they are not old in years, but because they are overworked, over-tired, nervous and run-down, ailments have developed peculiar to their sex and this condition makes them look years older than they actually are. Such women should consider the remarkable record held by Lydia E. Pinkham's Vegetable Compound. In a recent canvass among over one hundred and twenty-one thousand women who had used it, sixty-eight out of every one hundred women reported benefit from its use.—Advertisement.

AMENDMENTS "H" AND "I"

For the purpose of firmly establishing the Budget System in the state government the last General Assembly passed a joint resolution, designated "H," which proposed an amendment to the State Constitution by the addition of a new section to Article III.

Under the proposed Amendment the governor is required to submit to the General Assembly a budget of the state for the year ending before March 1 of each year when the assembly is in session. The budget shall contain a complete plan of proposed appropriations and complete estimates of the revenues and funds available for appropriations for the two ensuing years, including appropriations for charitable, educational and benevolent purposes.

In submitting proposals for appropriations to charitable, educational and benevolent institutions not under the absolute control of the state government, the governor shall, at the same time, submit a plan of distribution among the classes of institutions to be benefited. When the governor presents the budget to the General Assembly, he may also submit any recommendations as to the distribution of revenues. The General Assembly may increase, decrease, strike out, or otherwise alter or amend any item in the general appropriation bill, or may add new items thereto.

With the possible exception of the clause of the proposed amendment which authorizes the governor alone to make distribution of appropriations for charitable, educational and benevolent institutions, without revision by the General Assembly, as is provided in the case of the general appropriation bill, the proposed Amendment will be favored by voters generally who appreciate the advantages of the Budget System.

Amendment "I," the last of the three to be submitted to voters at the November election, would authorize a change in the method of furnishing stationery, printing, binding, paper, furnishings and fuel used in the departments of the government. These are now supplied under contract to the lowest responsible bidder. The proposed Amendment would provide for a continuation of the contract system with respect to printing and binding. The furnishings and fuel for the Capitol building and paper and stationery for the state government shall be made or produced by the state government, or produced under contract.

Voters who look with disfavor upon any proposal to have the government go into the business of production in lines in which the citizens of the state are engaged, will not be disposed to give their approval to this proposed Amendment.

Hypocrisy About Money

Isn't nearly all the ranting against riches the sheerest humbug, the sheerest insincerity, the sheerest nonsense? For is it not true that every normal man aspires to make headway in the world, to rise in his line of work, to attain success? And is not one of the normal accompaniments of success an increase in financial rewards?

The Bible enjoins us to regard the riches we may acquire as a stewardship. That's fair enough. The right-minded person does regard his money as something to be used wisely, for something to be used for the benefit, first, of those near and dear to him, and, after that, for the benefit of others.

There is no beauty in poverty. Poverty nearly always is ugly. Often it is cruel. The poverty-stricken can do little or nothing to help others, no matter how generously inclined they may be.

Money is worth striving for. Money is worth possessing.

Without a fair share of money, a man cannot do as much for others as he can if he has exerted himself vigorously and successfully to ac-

LaFolletteism Is Socialism

By FRED R. MARVIN,
 Editor Searchlight Journal, New York Commercial.
 What It Would Mean.

Robert M. LaFollette is the candidate of the Socialist Party for President of the United States.

While there appears at this time a difference between those who call themselves Socialists and those who call themselves Communists, with regard to the degree of their fanaticism, the fact remains that they are all in the same movement, commonly called the Socialist movement, and that all seek exactly the same objectives. These objectives are:

The overthrow of the Government of the United States, the confiscation of all industries and the abolition of the private property rights.

Denying, as the Socialist Party of the United States does, any open connection with the Communist International, the fact remains that the Socialist Party, upon the tickets of which appear Robert M. LaFollette and Burton K. Wheeler, has several times officially endorsed the Soviet Government of Russia.

Now what does this government stand for? What has it actually done? What would be the result in the United States should the name system of government be established here? How would it affect the people?

The answer to these all-important questions will be found in the analysis of the Senate Subcommittee of the Judiciary Committee, United States Senate, document 81, which reads as follows:

"It would mean the application of force and bloodshed, the destruction of life and property; would place the control of affairs in the hands of a dictatorship of the minority; would deprive millions of farmers, merchants, manufacturers, preachers, priests and others of the right of franchise; would confiscate over \$400,000,000 of the live stock and machinery of this country; would strip of nearly \$200,000,000 of the property of the churches; would confiscate all of the dwellings and residences; the seizure, to be run by the minority dictatorship, of all newspapers and periodicals, together with the mechanical plants connected with the same; the complete control of all banking institutions; and the confiscation of the assets of all insurance companies."

The LaFollette Socialists will say that is Communism, but the Socialist Party of the United States officially adopted the following report:

"Ever since the revolution the Party (Socialist) has hailed it as the greatest gift of the International. At every meeting of the national executive committee held since the second revolution (that of Lenin and Trotsky) the committee has issued resolutions in favor of the workers' and peasants' government of Russia.

Rarely has a meeting been held under party auspices that our speakers have not taken advantage of it to present the claims and achievements of the Russian revolution. The party's position may be easily ascertained by consulting the party bulletins and party press."

And Robert M. LaFollette is the candidate of the party which officially issued that statement!

SPECIALISTS IN THIEVERY ALSO

Each Separate Division Has Its Own Peculiar Technique and Tools.

New York.—In the many years that thievery has flourished it has become highly specialized. Each separate division has its own technique and tools and is carried on by men skilled in their use. The holding man has his gun and his blackjack and a speedy motor car to make his getaway. The second-story man has his jimmy and his flashlight. The bank teller uses false entries and bundles of false accounts. Railroad freight car thieves are part of an extensive organization that includes spies to keep an eye out for valuable shipments moving over the road, men who break into cars of moving trains and throw off merchandise, confederates with motor trucks and fences that dispose of the loot.

Take any professional out of his particular department and the chances are that he would bungle the job. A first-class box car thief could no more fish a diamond ring from a jewelry store than an iron purveyor could make the wheels of a 15-jewel movement go round.

One of the specialists in the department store thief. The larger department stores have detective forces of from 10 to 15 operatives, half of them usually women. Some of the smaller stores keep one or two operatives in their employ, while others secure detectives from outside agencies for work at rush seasons or special sales.

In some cases the department store thief is behind the counter. A girl working at the silk stocking counter, for example, finds it easy to get a pair for herself, for a gift, or for sale at a reduced price to a fence. She simply selects several pairs under her garter and walks out of the store when she goes home at night. Detection is difficult. While the number of stockings originally delivered by the counter is a matter of record, the fact that four or five girls all make sales out of the same lot and several hundred customers handle them each day makes it extremely difficult to trace the thief. If employees are suspected of systematic robbing, detectives armed with warrants search their homes for stolen goods while the employees are detained at the store on one pretext or another.

How the Shoplifter Works. Thefts by customers are also difficult to detect unless the sales people or the store detective catch them in the very act of lifting the merchandise. Silk stockings are stolen more frequently than any other articles sold in department stores. Silk underwear comes next in popularity, with leather goods a close third. Various methods are used by customers who help themselves to these articles. Women shoplifters frequently place a bag with a hinged bottom on top of some goods on the counter. The woman opens the bag and pretends to be searching for something to it while in reality she has pulled up the hinged bottom and draws the merchandise inside. Another method commonly used is for a person to take from a hanging a piece of cloth with the alleged purpose of watching it. When the cloth is put back into the bag a pair of silk stockings or a piece of silk underwear is stuffed in with it.

Thefts of jewelry, while not as common as a few years ago, are still of much frequent occurrence as to keep store detectives on the jump. In the old days, when department stores kept their jewelry displayed on the tops of counters or when salesmen brought out several trays at a time, it was a great deal easier to get away with a gold watch or a diamond ring than it is today, when trays are kept under glass and the salesman produces only one at a time.

Chewing Gum as an Aid. Two methods are still used in the theft of rings. Both of them make use of a humble piece of chewing gum. In the first a man with a cane steps up to the jewelry counter and asks to see some rings. The salesman rings out a tray and lays several rings on the counter. The prospective "customer" has placed a piece of chewing gum on the tip of the curved handle of his cane. When the salesman is looking at the tray, he sticks one of the rings in the gum. When the ring is moved by the salesman the thief admits that it disappeared under suspicious circumstances and consents to be searched by the store detective. Nothing is found on him and he walks out. A short time later a confederate enters, engages the ring salesman in conversation, and slips the ring from the gum under the molding into his pocket.

Thefts of hats are common. One method is for a woman wearing a \$2 hat to walk into the store and ask to see a hat selling somewhere around \$25. She tries on various models, and when the saleswoman looks away for a moment the "customer" walks out with a \$25 hat on her head while her \$2 hat goes the other way. Men also work this trick during straw-hat season.

One of the most daring of recent thefts occurred in a department store in an eastern city. A man wearing an anorak approached a negro porter employed in the store, slipped 25 cents into his hand and asked him to help roll up a very expensive oriental rug lying on the floor. The porter, pleased with the tip and assuming that the man was an employee because he wore a hat, helped him roll up the rug and put it on his shoulder. Several floor-walkers and store officials who saw the man walk away with the rug thought he was an employee of the

window trimming department. They reached this conclusion when they saw the porter helping him. The man disappeared around a corner and later walked out of the building.

Shake-Down Game.

A shake-down game was recently worked on a department store in a Middle West city by a well-dressed man who stepped up to the counter and asked to see some gloves. He tried on several pairs, glancing around nervously. His furtive glances attracted the attention of a detective, who took up a position at the next counter and watched him. While the salesman's back was turned the man put a pair of gloves into his pocket. He then told her he saw nothing he liked and started walking out of the store, followed by the detective, who stopped him at the door. He became indignant when the detective requested him to accompany him.

The detective, however, was lenient, and the man was searched. A pair of gloves similar in color and design to those on sale at the counter was found in his pocket. They bore, however, the mark of another department

store in the same city. The man said he had bought them there the day before. He took the detective to that store with him and the sales-girl at the glove counter verified the sale. The man again became indignant and shook down the store for a tidy sum on the ground of a threatened suit. His little ruse of first ascertaining what kind of gloves the store was selling and then purchasing a pair like them and laying them on the counter while he called to the salesgirl worked.

Plan Champlain Isle for Honeymooners Only

Burlington, Vt.—Dreams of honeymooners for an isolated island are on the way to reality.

Mrs. Frederick Welles of Burlington, owner of an 85-acre island in Lake Champlain, has received bids for it from six different men.

The island is equipped with a house of sixteen rooms, luxuriously furnished. It has four baths, extensive servants' quarters, a deer park and a yacht. The house was erected at a cost

\$100,000 and will, it is understood, be sold for approximately \$20,000 to a company which proposes to rent the entire establishment out by the day, week or month to honeymooners or, at the rate of \$100 a day, with an additional charge for servants and food. A week's honeymoon there would cost about \$1,000.

Mrs. Welles in describing the island said: "Young people will have no need to themselves. The servants' quarters are in a separate building. As for the house, it is so large that the honeymooners could lose themselves in it, so to speak. The living rooms, dining and breakfast room are most artistically furnished. The baths are spacious, equipped with large showers and marble floors.

"Then there is the deer park, a beautiful shaded retreat with winding paths shadowed with big trees. The yacht will carry them back and forth to the shore, the trip taking about one hour and ten minutes, as the island stands in the middle of the lake, far removed from the curious."

The place is known as "Stave Island." Mrs. Welles recently bought a larger

island somewhere in the lake and accordingly has no further use for the honey-moon island.

Find Aztec Markings on Nevada Cavern Wall

Reco, Nev.—Discovery of figures in Aztec and in eastern Nevada, near the Lohan Caves National Reserve, was announced by Dr. R. F. Schappell, University of Nevada, archeologist. He described the find as the most important archeological discovery of recent times. The markings are said to be the farthest north Aztec markings discovered. Rock writings resembling Egyptian hieroglyphics also were noted by the expert.

Members of the exploration party expressed belief that further investigation would uncover an underground city among the caves and on the banks of an underground river.

In a bright cave with a four by six foot opening at the surface, leading to a large underground room, five human skeletons were found. The bones were badly disintegrated. Nine angles were discovered 100 feet under ground in the caves.

Daily Fashion Hint

THE PETALLED SKIRT
is a favorite among the many lovely frocks for the debutante. This one is particularly charming with its deeply cut petals that are rather daring in spite of the demurely folded bodice. Pale pink shade decorates the skirt with a second row of petals in the skirt. A silver cloth slip is worn underneath. Silver and velvet ribbon make the shoulder decoration.

Death Ends Active Career of Charles F. Hood

Continued from Page One.

Always having a lively interest in politics Mr. Hood was active in the cause of the Republican party in numerous campaigns. He became its candidate as Representative in the General Assembly of Pennsylvania and was successful at the election at which the members of the session of 1905-06 were chosen. Later he became identified with the Roosevelt Progressive element in the party and was a candidate for Congress in the 23rd district in 1904 and again in 1911 but failed of election.

Having early in life realized the possibilities of the industrial and other development of the Indian Creek Valley Mr. Hood gave to that project many years of effort and much of his energy. He organized, was the chief owner and president of the Indian Creek Valley Railroad Company which built the road by means of which the valley was given an outlet to the world at large and direct connection with the Baltimore & Ohio at Indian Creek. The road was opened for traffic to Mill Run in 1903. By successive stages it was extended to Rogers Mill, Indian Head and finally Jones Mills, its present terminus.

Until the Baltimore & Ohio railroad obtained control a few years ago Mr. Hood was president and general manager. He still retained ownership of a large block of stock and was a member of the board of directors.

Of a genial disposition and always optimistic Mr. Hood was a prime favorite among a host of friends. In his earlier years he was a popular leader among young people in social and other activities. He was a diligent reader of good literature and history and a close student of public events.

Mr. Hood was married in Pittsburgh in 1888 to Miss Marie Le Robeau. To the union five children were born. The surviving members of the family are Mrs. Hood, John C. Hood of Cincinnati, Mrs. Marie Hood Sturges of Pittsburgh, Joseph D. and Russell of Connelville. Mrs. M. S. G. Lyon of Pittsburgh died several years ago.

Mr. Hood is also survived by his father, Daniel C. Hood, one sister, Miss Nettie Hood at home, and one brother, Samuel F. Hood of Greensburg. His father celebrated his 100th birthday on July 31 and is still in good health, though deeply shocked by the death of his son whose passing has been preceded by Mrs. Hood and two sons, Clarence and Albert A. and one daughter, Miss Kate Hood.

The remains of Mr. Hood were taken to his residence in Isabella road this afternoon where the funeral services will be held at an hour to be announced later.

MOUNT PLEASANT STILL NUISANCE; POLICE SEIZE IT

John Miller, Proprietor, Who
Defied Burgess Shields Is
Given Fine.

WIFE BEATER BEING HELD

Special to The Courier.

MOUNT PLEASANT, Oct. 10.—For
some time neighbors have been mak-
ing complaints concerning John Miller
of South Diamond street, who was
said to have bragged that he could
"make home and sell it in this town
if he wanted to," and that there was
no person could stop him. This had
become objectionable to law-abiding
citizens, who laid a complaint before
Burgess Shields. The Burgess ex-
plained to these persons that he was
unable to do anything until he received
some decision from the "borough
gentle." This led to a recent adverse
decision of Judge Copeland. Com-
plaints continued and after much
thought, Mr. Shields told those who
offered them that if they were willing
to declare the place a nuisance his
office would abate the nuisance.

Last evening, Policemen Jones,
Lambert and White, armed with a search
warrant, went to the home and searched
it for a nuisance that was being main-
tained. The nuisance, a 50-gallon
still, was in full operation. The mash
was emptied and the still, which had
not time to cool off, was taken to the
borough building. Miller was arrested
for maintaining a nuisance and paid a
fine.

Woman Brutally Beaten.

Chief of Police Robert Smith last
evening arrested John Sleski of
Smithfield street for beating his wife.
He has been in the habit of working
off his drunken fits on his wife, the
officers were told, and yesterday the
woman must have been exceptionally
strong as he beat her until it
was necessary to have a physician.
When brought before the Burgess last
evening Sleski became indignant that
he should be arrested for such a trifling
matter and declared he would
bring suit against the borough. He
was held in the lockup pending the
outcome of injuries to his wife who
was in a serious condition.

Filling Lot Happy Thought.

Work is being steadily pushed
along on the Diamond. It has been
necessary to dig down 18 inches to
get to bottom that is solid enough for
the base. James Olinger, chairman of
the street committee, is making good
use of dirt taken out of the public
square. The borough owns a corner
lot in Center avenue which runs to a
point and cuts off at a hill. Mr.
Olinger is having the earth hauled to
the borough lot which is being filled
in and squared off. When completed
there will be two nice lots instead of
the one that was not much good to
the borough, and yet for which it had
been offered \$700 as it stood. It is
thought that the two lots, as being
filled and planned by Mr. Olinger, will
bring the borough in \$1,200 or \$1,400,
almost enough money to take care of
the cost of changing the Diamond.

Chamber of Commerce Smoker.

Plans are being completed by Chair-
man C. A. Graub and his assistants,
Paul Doncaster and Joseph Goldsmith
for the first fall smoker and luncheon
of the Chamber of Commerce at the
National Hotel rooms on Tuesday eve-
ning, October 14. At the meeting
Burgess Mason, the Chamber of
Commerce of Connellsville will speak;
also Attorney Isaac F. Marsh, a former
Mount Pleasant boy, vice-president of
the chamber.

Overton Accident Victim.

While A. Stevenson and Ralph
Smith, employees for the Overton
company at West Overton, were re-
moving coal from a mine at that
place for the benefit of people living
in houses, the old coal tipples col-
lapsed, causing the men and wagon of
coal to fall 20 feet. Mr. Stevenson re-
ceived internal injuries and many
lacerations and was removed to his
home where physicians dressed the in-
juries. Mr. Smith received a very bad
laceration of the head and was taken
to the hospital for treatment and later
removed to his home, William Hurst,
his son, Francis, and Mr. Krough, the
farmer at that place, all were on the
mine when it collapsed. All suffered
lacerations.

SCOTSDALE "Y" TO BE REOPENED THIS EVENING

Everything in Fine Shape for
Resumption of Fall and
Winter Activities.

EPISCOPAL HARVEST HOME

Special to The Courier.
SCOTSDALE, Oct. 15.—Plans are completed for the opening of the Y. M. C. A. this evening. The swimming pool has been made ready for use, the lobby has been done over and the general appearance of the "Y" is good. It is in better condition than it has been in some time. The gymnasium has been cleaned and the floor refinished. An outside entrance has been provided to the howling alley. They will be officially opened October 16. At tonight's meeting the new fall schedules will be distributed.

Harvest Home Service.
The St. Basil's Church held its annual Harvest Home supper and service at the church last evening. Supper was served to all that could be accommodated in the parish hall. The hall and church were decorated with flowers, corn, pumpkins and autumn leaves. Later in the evening the sermon was delivered by the vicar, Gilbert Good.

Pythian Sisters' Memorial.
On Tuesday evening the Ruth Temple of the Pythian Sisters held a memorial service for Mrs. Chambers of Evanson, who died recently. The service was most impressive. The wreaths and flowers used were very pretty. At the business meeting two new members were initiated.

Jubilee Circle.
The Jubilee Circle of the Methodist Episcopal Church held its regular monthly meeting last evening at the church. Following the business meeting there was a social session.

At Sousa Banquet.
J. Frank Hardy, leader of the G. A. R. Band, was a guest at the banquet given for the members of Sousa's Band in Uniontown where they gave a concert. Among the Scottdale people who attended the concert were Mr. Hardy Howard, Murray Frank Boyd, James Harp, Roy Christner, George Miller, J. F. Gove, John Warrick, Stephen Bible, Richard Christner and H. C. Mear.

W. F. Bally Day.
Bally and promotion day services will be observed at the Methodist Episcopal Church Sunday. The ser-

mons will begin at 10 o'clock, taking the place of Sunday school and worship. It is hoped that persons not affiliated with some church, and all who have ever attended the Methodist Episcopal Church and for any reason dropped out will be present on Sunday.

Daughter Born.
Mr. and Mrs. Charles Kenney of Chestnut street are the parents of a daughter born a little before 10 o'clock.

Visit to Mrs. Kelly.
Mr. and Mrs. George Alpern and daughter, Sylvia, and Miss Rose Bohn motored to Pittsburgh and visited Mrs. Kelly of the Central Hotel, who underwent an operation at the Pittsburgh Hospital for appendicitis. Mrs. Kelly is on a fair way to recovery.

Personal Mention.
Miss Marie Eckman and Miss Charlotte McMurtry of Greensburg visited in Scottdale with J. W. Eckman and Mrs. James Maloney.

Mrs. H. C. Miner visited with Con-
necticut friends yesterday.

Mrs. and Mrs. Nick Hills and Mr. and Mrs. Lewis Hutchinson motored to
Pittsburgh to visit Mrs. Kelly.

Miss Margaret East, who has been
attending the national Red Cross convention in Washington, D. C., is spending a few days with her mother before returning to Kentucky, where she is a member of the state nursing board.

Mr. and Mrs. F. J. Ziron and daughter,
Mabel, and Mr. and Mrs. F. J. Ziron, Jr., motored to North N. J., New York City and Bridgeport, Conn. All have returned home, with the exception of Miss Mabel, who will spend several weeks in Connecticut.

For Sale.

Market Somewhat Quieter, Movement Lighter But No Change is Made in Prices

Prospects as to Enlargement
of Demand From Furnaces
Still Indefinite.

BY-PRODUCT USER IS WON

Who Will Now Use Beehive Coke Ex-
clusively? \$3.00 Absolute Minimum
for Standard Furnaces Heating Be-
coming Quiet; Foundry Still Slow.

Special to The Weekly Courier.
PITTSBURGH, Oct. 8.—The market
in all grades of coke has grown quiet-
er since last week, the turnover being
distinctly lighter, while there is not
much inquiry. Prices are not notably
changed.

Furnace coke would naturally be
quieter at this time, as contracting for
the quarter is out of the way, as well
as buying for the month of October.
There had been several transactions
for October, involving a few thousand
tons each, some of the buying being
by steel companies, to supplement
their own production. This buying,
for the month, was chiefly at \$3.00 to
\$3.15.

While there has been talk lately of
little furnaces going in and furnishing
demand for furnace coke on contract
to the end of the year, prospects along
that line are as indefinite as formerly.
Neither in pig iron nor in steel is
there a market condition at the mo-
ment that would encourage the buy-
ing in of little furnaces, although the
situation in this respect may change
at any time. While contracting for
fourth quarter, on the part of active
furnaces, was concluded several
weeks ago, in general, it is just learn-
ed that a belated contract was closed
recently for the requirements of an
eastern interest, which previously had
been using by-product coke in part,
but will use Connelville coke ex-
clusively in the present quarter, the
quantity being understood to be in
the neighborhood of 10,000 tons a
month.

Furnace coke for spot or prompt
shipment remains quotable at \$3.00 as
the absolute minimum for standard
grade. Lots of ordinary furnace size
would probably go at this figure, par-
ticularly if the operator is inclined to
establish relations with the furnace
in some quarters. It is thought that an
outside consumer asking for any con-
siderable tonnage might have to pay
considerably more than \$3.00. In gen-
eral the market remains quotable at
\$3.00 to \$3.15.

The common talk in the trade is
that the recent blowing in of ovens
has increased coke production a shade
more than actual consumption has
increased, and that if conditions re-
main as at present, a little prompt
coke will develop to be forced into
the spot market. Accordingly the
general tone of the market is describ-
ed as somewhat easier, but thus far at
least the actual offerings are by no
means pressing.

How Skinny Kids Can Grow Robust

A weak, undernourished, under-
weight boy and girl who are peev-
ish, fretful and sickly need McCoy's
Cod Liver Oil Tablets.

Cod Liver Oil would do just as well,
but what parent would give his child
to give them the horrible nasty taste-
ing, ill smelling stuff, when sugar-
coated and liver oil tablets made by
McCoy's Laboratories of New York
can be taken as candy and
won't upset their delicate stomachs.

There's more vitamin in the first
dose of cod liver oil than in anything
else and for that reason this, sugar-
coated, is the best.

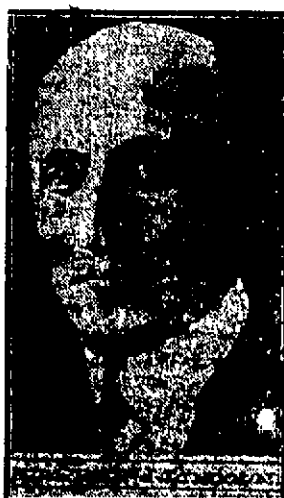

"The healthy, backward
boy needs McCoy's"

ly sickly children commence to live
up and take on good healthy flesh
after McCoy's Cod Liver Oil Tablets
have been taken for just a few days.
Be sure and ask Connelville Drug
Co., A. A. Clarke, or any good drug-
gist for McCoy's, the original and
genuine Cod Liver Oil Tablet. If you
want your delicate children to be-
come strong, robust and active.

For grown-ups they are just as
wonderful—one woman gained 15
pounds in five weeks. 50 tablets 50
cents and if they don't put 5 pounds
of good firm flesh on any thin man-
or woman in 30 days, get your money
back.—Advertisement.

Lincoln's Kin Pleads In- sane for Crime.

Warren J. Lincoln, of Geneva,
Ill., noted horticulturist, and kin of
the family of Abraham Lincoln, on
trial for the murder of his wife and
her brother, Byron Shoup, pleaded
insanity. He killed the couple,
burned their bodies and sealed
their heads in a huge cement block.
The State insisted that he was
sane, and demanded the death pen-
alty.

Heating coke, which was rather
active until a few days ago, has turned
quiet again, and prices for the
lower grades are a trifle easier, run-
ning down to \$2.50. As high as \$3.00
and even more is paid by small lot
buyers who are particular as to qual-
ity and do not need to be particular
as to price on account of the small
quantities they take. There is no
particular change in the underlying
conditions as to heating coke and the
volume of buying may increase at any
time. The trade notes that there is
less buying just now than is usual at
this time of year, the reason assigned
being that consumers have no fear
that there will be any scarcity this
winter and therefore do not bother
laying in stocks.

Foundry coke is moving somewhat
slowly, as while there is buying from
day to day the individual purchases
are very small. While the quotable
range of the general market remains
at \$4.00 to \$4.50, there are occasional
sales, as for a long time past, at above
\$4.50, when the buyer requires a par-
ticular brand of special quality. The
general average of all spot market re-
mains quotable as follows:
Spot furnace \$3.00 to \$3.15
"Contract furnace \$3.25
Spot foundry \$4.00 to \$4.50
The Pittsburgh district coal market
has broadened farther in point of ton-
nage, but prices do not improve a
particle. Although many mines have
resumed in the past three months,
there remain idle mines ready to go
in if they can sell their coal at the
present market, not insisting upon an
advance. The last Geological Survey
report showed coal mine operation for
the general Pittsburgh district at 50
per cent of rated capacity. By a long
range comparison this is a low
operating rate, but it represents a re-
markable climb in the past three
months, as the reports during June
showed an operation averaging slight-
ly under 20 per cent.

The Pittsburgh-Valley pig iron
market is holding its own easily in
the matter of prices, but as for sev-
eral weeks past, it shows very little
activity. Foundries are taking de-
liveries quite well on their old pur-
chases but it is not certain they are
consuming iron as fast as received.
The steel works using purchased iron
are running fairly well, but for
months past their purchases in the
open market have not seemed to be in
keeping with their consumption, hence
it is suspected there has been some
quiet buying, perhaps from middle-
men, without general inquiries being
put out. Prices are quotable the
same as a week ago:
Bessemer \$20.00
Basic \$19.00
Foundry \$18.50 to \$19.00
These prices are f. o. b. Valley
turnarounds, freight to Pittsburgh being
\$1.75.

Everybody Works But Father

"Father's stomach trouble seemed
to be getting worse all the time and
finally he had to quit work altogether.
Two brothers and myself gave up
school and went to work to support
the family. Father had lost sixty
pounds in weight and was yellow as
saffron and no medicine helped him.
Telling a friend about it six months
ago, she advised taking May's Won-
derful Remedy. I got a bottle and it
went back to work a month later,
has regained his weight and strength
and eats like a wood chopper." It is
a simple, harmless preparation that
removes the catarrhal mucus from
the intestinal tract and allows the in-
flammation which causes practically
all stomach, liver and intestinal ail-
ments, including appendicitis. One
dose will convince or money refund-
ed. A. A. Clarke and drugists every-

Frocks for Girls Attending School

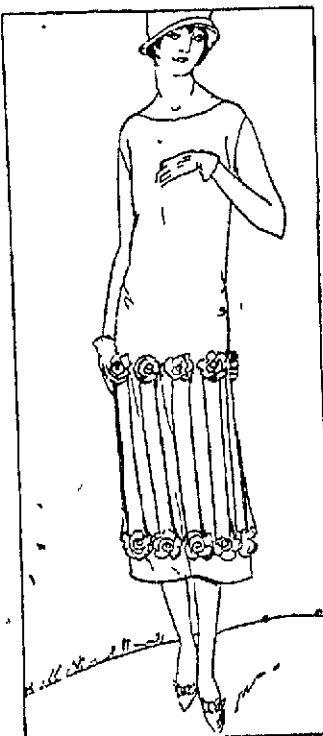

Simple Costumes Favored for Teas and Parties on Campus.

There is a genuine and delightful informality about the clothes of the college girl on her own campus that is apparent nowhere else, notes a fashion writer in the New York Herald-Tribune. Which does not mean that the fair undergraduate is oblivious to the changing of the mode but rather that her interpretations of the latest quirks of fashion are more liberal than orthodox.

The only specialized problem about the undergraduate's dress is her costumes which are to be worn for intracollegiate occasions. These are divided into two categories, the first and least important of which is the recreation outfit. This should be simple, substantial and unassuming. Under the same classification come the athletic costumes which will vary according to the sports and outdoor activities which prevail at the different colleges. If the now student is not thoroughly informed on these matters, it is advisable to procure this information from a member of one of the upper classes or the dean after which the selection of suitable dresses, sweaters and the like becomes a simple matter.

The real problem of college dress, however, has to do with the clothes which are to be worn at the intracollegiate functions, such as the freshman reception, the junior tea and similar affairs, which belong strictly to the college proper and at which no outsider dare intrude. These are not social affairs—indeed, it is hard to define them—they have an atmosphere entirely their own. The fashionable frocks of the campus or the theater would be obviously out of place in this picture and yet lively attractive costumes are an absolutely essential setting as any undergraduate can testify.

The solution of this dilemma is a charming compromise which probably had its genesis in the mind of some

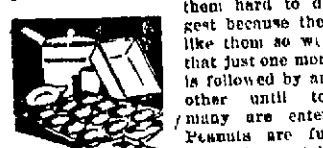

Dress of White Crepe Satin With Rosettes of Fringed Silk.

frugal junior. It is to wear the light, simpler clothes at all college activities which take place within the boundaries of the campus. These costumes may also be appropriately worn for outside affairs during the first weeks of the winter semester. They answer a double purpose. Not only do they endow the intracollegiate entertainments at the university with the necessary unpretentious charm but they also provide an economical outlet for the late autumn clothes of the undergraduate.

A typical fringe silk model which could be attractively worn by freshman or sophomore is the beautifully simple dress of white crepe satin trimmed with flower-like rosettes of fringed silk. A sort of bodice or overskirt made of three bands of the crepe, as in and is attached to the dress by means of these rosettes. Each band has ends in a flower motif. The effect is one of exquisite simplicity.

The KITCHEN CABINET
(© 1924, Western Newspaper Union.)

Most people enjoy peanuts when freshly roasted and crisp. Some find them hard to digest because they like them so well that just one more is followed by another until too many are eaten.

Peanuts are full of nutriment, like the place of meat in many dishes, and are good combined with various foods. For stuffing peppers for baking, use the peanut butter or finely minced peanuts in place of meat, with the bread crumbs and other seasonings.

Peanut Butter Blintzes—Stir two cupsful of flour, add four teaspoonfuls of baking powder and rub in one-fourth cupful of peanut butter one-half of a teaspoonful of salt and just enough cold water to moisten. Roll and cut into rounds and bake as usual. Use for dessert with a sauce and a few sliced prunes to the biscuit mixture.

Peanut-Prune Shortcake—Prepare a shortcake for the peanut blintz, make

Don't try to hide skin trouble. Get rid of it! No amount of cosmetics can conceal an ugly skin. They only fill in the pores and make the condition worse. Resinol Soap cleans the pores, giving them a chance to breathe and throw off clogging impurities—the first step in overcoming skin defects.

A touch of Resinol Ointment for blotches and inflamed spots, relieves the soreness and reduces the angry look. The soothing, healing medication in the Resinol products makes it so easy to get rid of excessive oiliness, blackheads, blotches, redness, etc., why waste time trying to hide them. "Resinol wins by improving skin."

RESINOL

In layers, one baked on top of the other, and for the filling cut one-half pound of prunes which have been soaked overnight in cold water after being well washed, then simmered in the same water until tender, and half a cupful of sugar and cook until thick. Cool and lemon juice and grated rind of desired or orange juice and rind. Serve over the shortcake as one does any fruit.

The children all know the peanut butter sandwich and peanut butter fudge using peanut butter in place of the milk and butter in ordinary fudge.

Peanut Butter Potatoes—Cook potatoes in salted water until tender, drain and into a vegetable dish in which a tablespoonful of finely minced onion and four tablespoonfuls of peanut butter are added, place potatoes, having the dish hot; season the potatoes with salt and chop them, mixing well with the butter and onion. Use a pinch of potatoes to this amount of seasoning.

GULBRANSEN The Registering Piano

Real Piano Music—on the Gulbransen

The Gulbransen Registering Piano is an instrument played by music-roll-and-pedals, that you can play in a musical way, with all the expression and feeling you have.

To play what you will—as you will—when you will! To give full rein to all your undeveloped musical talent. Just think what this means to you who have never learned to play by hand, or having once learned, have not had the time or opportunity to keep in practice! No tedious finger-ling! No long study!

Just think what the Gulbransen means to that musically-promising daughter—to that growing young

son—to live in, and share in, such musical, homebuilding influences.

Real piano music? Yes. But, make this test yourself—

Try any simple piece on the Gulbransen. You will be delighted at the musical results you can get—so natural and pleasing. Then try an operatic air, or something more classical. You will be agreeably surprised how wonderfully well you can play it. Whatever kind of music you prefer—popular, semiclassic or classic—you will positively marvel at the personality and life you can put into anything and everything you play on your Registering Gulbransen.

Navy Twill With Roman Stripes for Fall Outfit

Attractive among the new fall outfits shown at a New York fashion display was this straight-line, one-piece garment. It is cut of navy twill with Roman stripes worked into boxes on the skirt. The matching scarf is fringed with Roman stripe colors.

Paris Designer Exploits Louis XV Period Styles

Rotten uses all the latitude of modern fashion to make his collection interesting, observes a Paris fashion writer. He has period gowns of Louis XV and director's style, and in contrast he has the simple, straight dress with just enough width to walk. He also emphasizes the good and simple-fashioned fullness. The Spanish influence is recognized only once in the collection and that is in a black dress which has a long silk fringe and a draped stole scarf which is also edged with fringe. The Spanish effect is heightened by the hat that accompanies it—a hard black felt with a straight brim.

A feature of the collection is the jabot collar, which adorns a number of dresses and coats. This designer is also attempting to revive the three-quarter length cape and has two examples in royal blue velvet, one trimmed with chinchilla and gathered into a band of the fur at the hem the other plain and with a gray squirrel collar.

The most striking dress is that called "Inevitable," which is in pure directoire style. It has a black cloth tail-coat buttoned double-breasted in front and finishing at a high waistline. With it is worn a white ermine having stiff projecting ends, ruffled at the wrists and a skirt that with its five-inch stripe of black and beige tulle, is made very narrow and gives almost the effect of a pair of trousers. Naturally, a silver belt hangs from a black velvet ribbon, and the high-crowned black hat is quite in the picture.

The Louis XV costume is in brown velvet with a narrow gold border embroidery. It has the high collar and wide cuffs of the period and a large jabot and ruffles at the wrists. The waistline in this house is considerably higher, but one wonders if the Parisienne will adopt it instead of the longer line that is becoming to most figures.

Fashions in Bandeaux Are Dainty and Winsome

New styles in bandeaux—some most intriguing things in ribbon and the new metal weaves with beautiful colors and dainty patterns, are rather novel. It has the high collar and wide cuffs of the period and a large jabot and ruffles at the wrists. The waistline in this house is considerably higher, but one wonders if the Parisienne will adopt it instead of the longer line that is becoming to most figures.

The wearing of bandeaux and ornaments in the hair has created a demand for the most interesting variety of pretty, artistic things for this purpose. There are new ideas with set number in comb, for instance, from the huge, picturesque Spanish variety to the little jeweled affairs that come from Paris. These are for the older women for the younger bobbed head requires something different. The Chinese influence is shown in some of the gay ornamental pins for the hair. One jolly little novelty is a butterfly in bright colored enamel, fastened to a large gold hairpin in such a manner as to quiver with every motion of the head.

Novelties for the Boudoir
For the boudoir come such items as a floral painted wooden dresser set, a mustel cigarette box in the form of a hope chest, glass perfume bottles with pyroxylin stopper tops of standard stock such as fish scale pearl amber and tortoise, and alabaster powder jars painted in vivid pastoral scenes.

SENATORS COME BACK AND EVEN UP THE SERIES

Washington, In Great Game, With "Peck" at Short, Wins 3-1 Victory.

HARRIS DOES THE "JOB"

The Washington Senators, with their back to the wall and Zachary doing his souped-up fling on the mound, by a heroic effort evened up the World Series yesterday, taking their third game. The count is now three all and the outcome of today's clash will decide the championship.

The managers are faced this afternoon with the necessity of picking twirlers from slabs that do not offer much. The Senators are further handicapped by the loss of Roger Peckinbaugh. The doctored captain, who sustained a charley-horse in the third game went back into the line-up yesterday, and, although suffering excruciating pain, stayed in until the ninth when his limb gave way after a remarkable force play, and he fell on his face in the dirt back of second. He had to be carried from the field.

The Giants opened the first frame with a run. Zachary then bore down and after the third frame no Giant ever got as far as second base. The Senators won the game in the fifth. Two were out. Peckinbaugh went to bat and drove the ball to left for a single. Then McNulty walked. Harris was next. He hit a single and both runners scored. McNulty having stolen second.

Today both teams are anticipating a victory. There is lots of betting in Washington, where the game will be played. No advance selection of pitchers is being attempted by any writer and they will hardly be known until game time.

The game yesterday was the first of the series held to such a low score. It is a great world series battle. In the opinion of the team managers. Today is the second time the Giants have been forced to go the full route in such a series. The other time was in 1912 when the New Yorkers lost to the Red Sox in the final clash.

Widow Has Insurance
Ben Higgins never would be passed. He brags his car's endurance. He passed six cars with backward glance. His wife has his insurance.

D. T. H. S. Will Play S. B'ville Team Tomorrow

Dunbar township gridders will clash with the strong South Brownsville eleven tomorrow afternoon on the Trotter field. The game will get under way at 8 o'clock. With a new grid mentor to steer them, the football players are confident of chalking up a win, breaking the losing streak of the Red and Black contingent.

The team has been going through signal practice during the week, no scrimmages being held. With new signals and plays, all of the time was devoted to getting them down. The extra-long sessions have helped to keep the gridders in condition.

The probable line-up for tomorrow's clash is as follows: Left end, John Blakely; left tackle, Tinsie; left guard, Petrasovich; center, Landymore; captain; right guard, Morawalt; right tackle, Gillespie; right end, William Blakely; quarterback, Sweeney; left half, Inas; right half, Smith; fullback, Mahallie.

Cokers Meet Donora High Eleven Here

Connellsville High School's football team, fired by a new spirit—developed against Jeannette last Saturday—will go out tomorrow determined to win its first game of the season. Donora High School is the intended victim and after that comes Lenoir, McKeesport and Indiana. The game will be called at 3 o'clock.

A new combination may mark the opening of tomorrow's struggle. Hilliard has been working out at quarters. The team seems to be functioning very steady under him and it is possible he will occupy that position when the whistle blows.

Some of the boys are still on the injured group. This contingent was only given loosening up exercises yesterday afternoon. The others included in a scrimmage.

The next two weeks may see some further changes in the line-up. If John Long's wrist strengthens he may go in at center, moving O'Donnell to another line position. It is hardly probable "Newt" Sullivan will get on his elbow because of a boil on his elbow. Should it be healed sufficiently he may break into the fray but at present that does not seem to be the likelihood.

S. Connellsville Independents at Hecla Tomorrow

The South Connellsville Independents are practicing steadily in preparation for the game Saturday with the Argonne Eleven at Hecla. "Pop" Francis, a former Connellsville High School star, is assisting in leading the gridders through their workouts. Jack Adams is the mentor of the team.

Burkhardt, who had his hand burnt while working at the Captain Glass plant will be able to get in the game Saturday. Approximately 150 fans will accompany the team to Hecla. The contingent will leave at 1:30 o'clock.

Vanderbilt Stars To Meet Dickerson Run Shop Rollers

The Vanderbilt All-Stars will clash with the Dickerson Run Shop-Track All-Stars this evening in the Cavalier Brothers Recreation Parlors, following which an all-star line-up to represent the Young Valley will be selected. Election of officers is to take place.

To Suit the Gown

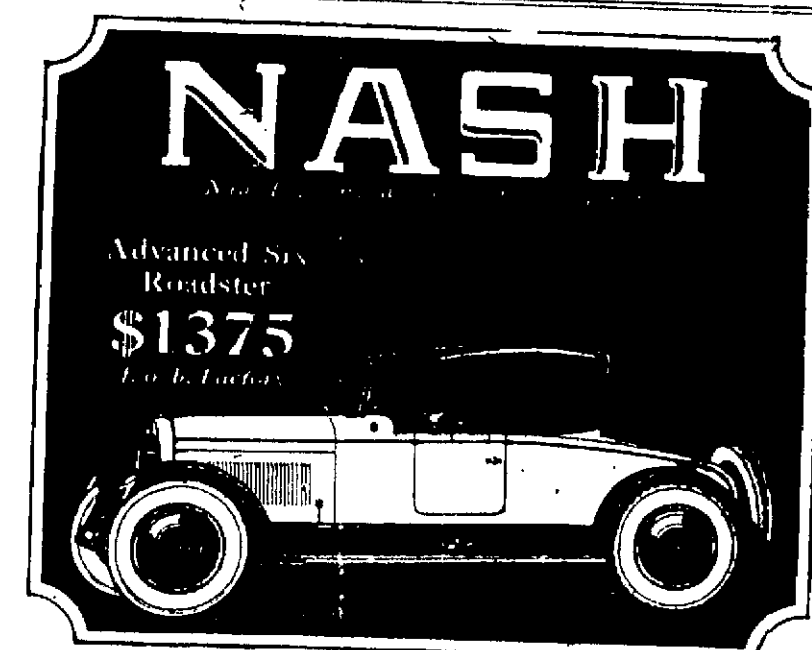

The well-dressed woman of today adapts her underwear carefully to the prevailing style of gown. With the present fancy for the slim and slender in outline, points to be avoided in underwear are: Gathering swells at the waistline, stiff outstanding fabrics (like taffetas), over-decoration of any kind, such as ruffles, flounces, elaborate lace trims, tucks, anything which will cause a bunchiness to enter wear, unless the latest pin tuckings.

Human Newspaper Dead

Frank, Pa.—John Hauser, "the human newspaper," is dead. Hauser ran an unpretentious book and stationery store, and dug up more news stories during his career than any reporter in town. He wrote what he found in longhand and hung sheets of news in the store window. In a short time he grew to be the news for every one's reading.

You Can Quickly Limber Up Sore, Stiff, Swollen Joints

Even Chronic Rheumatic Swellings in Knees, Elbows, Shoulders or Finger Joints Yield to the Mighty Powerful Influence of JOINT-EASE.

It's here, right in town and Union Drug Co., Connellsville Drug Co., and every five drugist has it.

It's a low price remedy, to be sure, but that doesn't stop it from taking the kinks, lameness or torture out of your troubled joints.

Joint-Ease is the name, so-called because it is compounded solely for the purpose of relieving all joint ailments.

Just rub it on the tormented, lame joints and in just a few seconds it will penetrate to the bone and blessed comfort comes quickly.

It absorbs instantly and is so clean and stainless that you can rub it on often and get thereby, results much more quickly, when the joint is inflamed and the agony intense.

Being such a powerful counter irritant, it cannot help bring speedy and helpful results in congestion, sore throat, chest colds, lumbago and neuritis much quicker than almost any remedy you can buy.

But you must remember that it is for joint afflictions that it is mostly dispensed and its helpfulness will astonish you after all ordinary treatments and other treatments have failed.

Always remember, when Joint-Ease gets in joint agony gets out—quick. —Advertisement.

New Way Eczema Goes in 48 Hours

Many people who suffer from itching skin and eczema, like to use relief and discomforts and some of them are very good.

The one way, however, and the new way to get rid of eczema in 48 hours or less, is to use Kelen, the most powerful, non-poisonous, non-irritating antiseptic known.

It's a liquid and a six ounce bottle costs but 50 cents at Union Drug Co., or any progressive drugist and it doesn't end your eczema in 48 hours—money gladly returned. Directions on each bottle.

It's equally good for boils, carbuncles, ulcers, skin infections, pimples and salt-rheum. —Advertisement.

KICKLESS, NO DOUBT

"None of these new amusements will succeed."

"And why not?"

"Not one is banned by the law."

Should Be Merry

Old King Coal is a merry old soul. A merry old soul is he—

When you consider the size of his belt, why in the world shouldn't he be?

FIRST PICTURES OF CHINESE WAR, SNAPPED UNDER HEAVY FIRE.

① NOVEL PROTECTION ② RED CROSS OPERATING TABLE ③ CHEKIANG ARTILLERYMAN ④ RELIEVING WOUNDED ⑤ CHEKIANG SOLDIER ⑥ BRITISH MARINE ⑦ CHEKIANG GUARD ⑧ PUGUOY

These are the first pictures of the fighting for the possession of Shanghai, China, snapped by a staff correspondent of the International News Service. Believe it or not, Chinese soldiers carry their umbrellas into action, and in Figure No. 1, a Chekiang Province gunner defending the city may be seen seeking shelter under his in a trench on the Huangpu front. The Red Cross operating table in the same front was made from two Red Cross kit boxes and a door panel. The Chekiang artilleryman, under heavy fire, finds a safe berth under his gun. Despite the intensity of the fire, his tea kettle at the right was going merrily. The wounded are removed in stretchers by conscripted coolies, who also make take up ammunition and food. The photograph of the Chekiang private was taken under rifle and machine gun fire, but he didn't seem to mind. British marines are captured in Jiafield Park, outside the foreign settlement in Shanghai, to protect foreigners. This modern Chekiang gun, surrounded by empty cartridge cases, was fired many times at Huangpu. The Chinese guns are of German, French and Japanese manufacture.

Because hands of skilled mason used to move from place to place to build the great cathedrals. They established secret signs to protect their craft against impostors. The name Puretest on
